Tree of Life Medical Mission - \$10,000

This project will support a medical team that visits a very needy area in Chiapas, Mexico providing medical and especially surgical care to the population that cannot afford this care. The offering will help to purchase several very needed surgical trays of instruments so that more surgeries can be done in the time that the team is there. With limited supplies, currently surgery can only be done after each set of instruments being used is cleaned and re-sterilized, slowing down the process.

Loma Linda Word Radio - \$10,000

Loma Linda World Radio is a project led by Jonathan Zirkle, a lawyer in the Loma Linda area with a passion for mission. Did you know that more people listen to radio than would come to a church service? Although there are many Adventist Radio Stations in the US most of them have a fairly small reach. This project is projected to be able to reach a much wider audience in the inland empire of Yucaipa, Loma Linda, San Bernardino, Riverside, CA. The content will use programming from Radio 74 a very successful European station covering much of

Europe in English. In addition, new programming on health is planned that will be appropriate to the listening audience in the US.

Bite Size Talks Conference - \$1,500

This conference was the first in the Pacific Union with the theme about food as an evangelistic outreach! It was planned and carried out by the Finish the Work Director & his team to encourage Adventists to consider using their time and talents to evangelize through food events or restaurants. A very exciting and well planned event held in late April it featured a wide variety of pastors and lay persons involved in their churches who use cooking schools, health lectures to the community, restaurants and featuring also chefs and owners of restaurants that are Adventist owned businesses. Conference participants were encouraged to use the interest people currently have in healthy vegetarian and vegan cooking and eating to reach out to their community.

Diabetes Undone - Spanish Translation & Printing - \$18,000

This project will enable Life & Health Network Ministry to help translate the very successful English version of Diabetes Undone workshop program for churches into a Spanish version of the workbook and Video series. Hundreds of people have already benefitted from the English version and churches are requesting materials in Spanish for this important Health Outreach. This project will be able to be completed much sooner with this helpful addition.

Finish the Work - \$2,500

Finish the Work is our own Pacific Union ASI team of young adults that we sponsor as they go to churches and youth groups around our Union sharing, witnessing and getting youth involved. Our offering this year will pay for their meals, driving expenses and supplies as needed over the next year.

During the past 8 years we have been sponsoring them they have been responsible for over 100 baptisms. During the past year this is a sample of what they have been doing. Their main outreach is to other young people.

1. Youth Move: A Christian community where young people are moved to move.
2. Short Talks: A small group discussion where Christianity meets practicality
 - Learning how to deal with everyday life issues by knowing and connecting with a personal God. A place where you can come with open ears and open mind to exchange experiences and ideas

3. Taste & Tell: Live Healthy, Learn Healthy, & Love Health
 - Experience a healthy lifestyle by learning how to prepare plant-based recipes that taste great! Enjoy healthy dinner discussions that are both good for the mind and good for the soul.
4. Evangelistic series on April 28-May 13 with Justin Khoe a former Finish The Work member and now an online Christian vlogger.

Souls West - \$2,500

SOULS West is a time-tested concept of education. Like the school of the prophets, SOULS was established to develop church leadership, teach evangelism (Matt. 28:19, 20), and cement our youth into the plan of salvation as taught and loved by Seventh-day Adventists. Young adults learn leadership skills, literature evangelism skills, personal evangelism skills as well as finance, health ministry, and the study of how to win souls to the Lord. Our offering will help continue the scholarship fund for worthy students that have worked hard over their 2-year course and also for evangelism outreach
